

Keep Busy & Stay Connected with the Ridgefield Library!

Take a walk outside and count the colors you see.	Have a family sing-a-long with everyone's favorite songs.	Count the number of stairs walking up and back down again. Keep going!	Plant a bean in a plastic bag with a wet paper towel. Tape it on a window and watch it grow.	Take a listening walk. What do you hear?
Do a dance to a favorite song. Name the dance and teach it to someone.	Look for seeds on plants outdoors. Plant a few inside and be surprised by what may grow.	Read or tell a story to someone.	Make a new healthy snack. Give it a name. Tell someone else how you made it.	Collect things from inside or outside that are smooth, rough, pointy, round, cold, warm & wet.
Sort your toys by color, size, texture, ones you like and ones you are ready to give away.	Draw a picture of a character from a favorite picture book.	Hide something inside or outside then draw a map to help someone find your hiding place.	With an adult, take a litter walk. Wear gloves and collect things that do not belong to nature.	Write a story and read it to your family. Use words or pictures.
Try to talk without saying a word. Use body movements to express yourself.	Make a story tent and bring in your stuffed animals for a storytime.	Dress up and pretend to be someone else. Have others guess who you are.	Make driveway or sidewalk art using chalk or water in squirt bottles.	Go on a spring scavenger hunt outdoors looking for things that are sprouting or blooming.

Complete 10 or more of the activities and bring this page back to the Library for a reward when we reopen!
